A Message from the Search Committee:

"Did you know that early in St. Paul's history, a former rector was tried for heresy? Or that in the 1950s, there were 90 churches of various denominations serving the Canton community? These are just two of the interesting and little-known facts unearthed during the extensive research into parish history and the Canton community that the Search Committee has been involved in as we prepare the parish profile. The majority of the profile has now been drafted; in addition to the sections on parish history and Canton community, our present church life is detailed, from worship to mission and ministry. The importance of this profile cannot be overstated; painting a picture of who St. Paul's has been in the past, who we are now, and who we want to be in the future lays the foundation for the rest of the process and, as such, requires more than a slap-dash effort. The Search Committee appreciates your continuing prayers as we work with care and purpose to move the process forward!" ***Barb Anderson, chairperson***
